- English (Fluent)
- Urdu (Fluent)

PROFILE

Motivated and detail-oriented Frontend Developer with hands-on experience in building responsive and user-friendly web interfaces using HTML, CSS, and JavaScript. Skilled in integrating frontend applications with C# ASP.NET Web APIs, ensuring seamless user experiences and efficient data handling. Strong understanding of modern web development practices. Passionate about writing clean, maintainable code and continuously improving technical skills. Seeking to contribute to dynamic development teams and grow as a full-stack developer.

WORK EXPERIENCE

University Project

2024

Frontend Developer

- Designed and developed a Windows Forms desktop application in C# for managing travel packages, and customer data.
- Implemented functionalities like customer registration, travel area selection, booking for flight, and feedback using Qr code.
- Applied object-oriented principles and handled database interactions using local SQL database.
- Focused on creating a user-friendly layout and ensuring reliable form validation.

University Project

2025

Backend Developer

- Designed and implemented a responsive frontend using HTML, CSS, and JavaScript for a full-stack Hostel Management System.
- Integrated the frontend with backend ASP.NET Core Web APIs (C#) to handle admin login, student registration with room capacity checks, and duty assignments.
- Implemented logic to dynamically update room status (Available/Occupied) based on assigned students.
- Utilized Entity Framework Core for database operations, and followed clean code principles and proper error handling.

Self-Initiated

2025

Backend development

- Developed a fully functional Inventory Management System in Asp.net core using Mvc.
- Implemented features including product entry, stock tracking, supplier management.
- Designed a user-friendly interface for adding, updating, and deleting items.
- Integrated a SQL database to store inventory data.
- Applied object-oriented programming principles and focused on code modularity and maintainability.
